About Us - Services Catalogue

Introduction

We craft packaging that tells your story with elegance.

InTheBox empowers brands with tailored high end products from structural design to finishing touches- so every box you ship becomes a symbol of who you are and where you are headed.

Core Values:

- Client-centric collaboration
- Innovative design thinking
- Cost-friendly solutions
- Sustainable materials and processes

What You'll Find in This Catalogue

- | | |
|--|---|
|  Packaging Consultation | We help you identify the ideal packaging structures, materials, and aesthetics based on your product's needs and brand positioning, ensuring functionality and visual appeal. |
|  Packaging Designing | Our team creates custom structural and graphic designs, delivering production-ready files optimized for manufacturing, cost-efficiency, and high-end finishing. |
|  Packaging Manufacturing | We manufacture the approved packaging designs using premium materials and deliver the finished products to your doorstep, maintaining quality and timely execution. |

1.1 Packaging Consultation

At InTheBox, our Packaging Consultation service is designed to guide businesses in selecting the most effective, functional, and appealing packaging for their products.

We help clients make informed decisions regarding packaging structures, materials, finishes, and sustainability — ensuring that the packaging protects the product, elevates its shelf appeal, and enhances the overall customer experience.

Scope of Service:

Product Understanding	Analyze the product's size, weight, fragility, perishability, and transportation needs.
Structural Solutions	Suggest suitable packaging structures like boxes, pouches, tubes, inserts, etc.
Material and Finishing Guidance	Recommend appropriate materials and finishes (kraft, rigid board, embossing, foiling, lamination, window patches) and accessories like cards, brochures, ribbons etc.
Eco and Design Advisories	Propose eco-friendly alternatives and guide design element placements based on printing constraints.

What we do NOT include:

- Direct sourcing assistance.
- Brand identity creation (logo design, tagline creation, brand voice strategy).
- Advertising or marketing positioning advice.

1.2 Expectations from Clients

- Share complete product specifications before consultation (dimensions, weight, special handling needs, storage conditions, target audience profile if available).
- Clarify specific goals for the packaging — whether it's luxury feel, sustainability, cost-effectiveness, giftable packaging, or protection during shipping.
- Share any references or inspirations if available (optional but recommended).

1.3 Service Packages and Pricing Overview

Package	Description	Fee (INR)
Starter Session	1-hour focused consultation on choosing appropriate packaging types and material basics. Suitable for startups and early-stage businesses.	₹2,000
Deep Dive Workshop	3-hour intensive session covering detailed packaging workflows, material options based on industry trends, sustainability upgrades, cost vs. durability balancing, and design-friendly structures. Includes a written action plan.	₹6,000
Monthly Advisory Retainer	Up to 4 consultation sessions per month to support multiple SKUs, seasonal packaging launches, or innovation in packaging types. Ideal for growing brands launching frequently.	₹12,000

2.1 Packaging Designing

At InTheBox, our Packaging Design service focuses on creating ready-to-manufacture packaging artworks that are tailored to the product's functionality, market trends, and consumer appeal.

We believe packaging is the first physical interaction between a brand and its customer — and we make sure it speaks volumes.

Scope of Service:

Concept Development	Create custom structural and graphic design concepts (boxes, sleeves, pouches, tubes, cartons, etc.).
Production-Ready Files	Prepare print-ready, manufacturer-friendly designs, including dielines and technical specifications. (.ai/pdf)
Aesthetic Optimization	Align designs with product category, audience, material constraints, and budget considerations.
Functionality & Enhancements	Ensure practical usability (easy opening, durability, resealability) and guide on luxury or eco-friendly add-ons like embossing, UV, foiling.

What we do NOT include:

- Logo creation, tagline development, or brand positioning creation (these must be provided by the client).
- Marketing messaging, ad copywriting, or campaign design.

2.2 Expectations from Clients

- Share complete product specifications before consultation (dimensions, weight, special handling needs, storage conditions, target audience profile if available).
- Clarify specific goals for the packaging — whether it's luxury feel, sustainability, cost-effectiveness, giftable packaging, or protection during shipping.
- Share any references or inspirations if available (optional but recommended).

2.3 Service Packages and Pricing Overview

Package	Description	Fee (INR)
Standard Design	2 packaging concepts based on brief, 2 rounds of minor revisions, final editable files ready for print (AI/PDF formats).	₹8,000 per SKU
Advanced Design	3 packaging concepts, unlimited minor revisions, packaging mockups for better visualization (digital 3D renders).	₹12,000 per SKU
End-to-End Design Support	Full packaging journey — concepts, revisions, mockups, dieline setup, file prepping for manufacturers, assistance in checking prototype samples from production. Note: Consultation package (Monthly Advisory Retainer) will be free of cost in this package.	₹25,000 per SKU

3 Packaging Material Manufacturing & Delivery

Beyond design, InTheBox offers seamless Packaging Material Manufacturing and Delivery service — bringing our designs to life with the highest quality production standards.

We take the stress out of production by handling the entire process: from sourcing material to manufacturing the final packaging and delivering it straight to your doorstep.

Scope of Service:

Manufacturing	Manufacture the packaging designed by our team, using selected high-quality materials (rigid boards, kraft paper, premium card stock, eco-friendly substrates, laminates, etc.).
Finishing Options	Provide options for various finishes like matte, gloss, soft-touch lamination, spot UV, embossing, foiling, etc., depending on the design requirements.
Prototyping, Production and Delivery	Handle structural prototyping, full-scale production, and doorstep delivery.

What we do NOT include:

- Manufacturing designs that are not created or approved by InTheBox.
- Vendor recommendation to third parties (we directly manage manufacturing for projects we design).

3.1 Service Packages and Pricing Overview

Note:

The production pricing is subject to variation based on the selected material, product dimensions, finishing details, and additional accessories.

3.2 Expectations from Clients

- Final approval on design files must be provided before production starts (no changes possible after this).
- Production timelines vary based on material availability and quantity — typically 15–30 business days.
- Advance payment as per invoice terms before initiating production.
- Samples may be provided upon request; however, additional charges may apply depending on the dimensions, material selection, and finishing requirements.

Thank You

At InTheBox, we deeply appreciate your trust in our packaging solutions. This catalogue is designed to guide you through our services, processes, and expectations as we work together to bring your vision to life.

We encourage you to refer to this document whenever you need clarity on our offerings, pricing, or collaboration guidelines. For any further questions, our team is always ready to assist you.

Thank you for choosing InTheBox. We look forward to creating packaging that truly reflects the essence of your brand.
